**Punjab Education Foundation at a Glance**

Punjab Education Foundation (PEF) started its journey way back in 1991 with the aim of encouraging and supporting quality education for underprivileged and deprived children. It has now come a long way to serve in 29 districts of the province. The journey is still continuing, and by the grace of Allah Almighty, PEF has successfully extended its FAS Program in 10 new districts including Sargodha, Rahim Yar Khan, Rawalpindi, Jhelum, Layyah, Attock, Mandi Bahauddin, Okara, Pakpattan, and Dera Ghazi Khan. In addition to this, 13,000 more students have also been funded through the Education Voucher Scheme (EVS) in Lahore city; increasing the total number to 30,000 in Punjab. PEF is also expanding EVS in Kasur, Multan, and Rawalpindi.

PEF is proud to extend its services in less-developed hinterlands of Southern Punjab, where it will serve 20,750 students of 83 NSP partner schools in Rahim Yar Khan, Layyah, Dera Ghazi Khan, Bahawalpur and Rajanpur.

As PEF is committed to promote quality education through an efficient and transparent public-private partnership, therefore, Quality Assurance Tests (QATs) are conducted in collaboration with National Testing Service, University of Management and Technology, Board of Intermediate & Secondary Education, Bahawalpur and University of the Punjab, Lahore. PEF is the only didactic organization in the province which has adopted state of the art electronic marking system in collaboration with the Agha Khan University Board, Karachi. PEF has also developed a hassle free system of online funding of partner schools and their dues are electronically deposited in school accounts on the first of every month.

---

**Chairman’s Message**

I appreciate the PEF-Communication Department for bringing out volume-XI of quarterly ‘The HOPE’. I do expect it to help foster understanding of our initiatives for the poor students. PEF is striving to materialize the goal of 100% literacy through public private partnership and numerous educational programs have been designed accordingly to achieve the desired goals in collaboration with the stakeholders.

PEF’s main responsibility is the promotion of quality education; for this purpose, multi-pronged strategy has been adopted which includes conducting Quality Assurance Tests (QATs) bi-annually, effective monitoring and evaluation system and capacity building programs for teaching staff as well as school administrators. It helps to strengthen our partnership for quality education.

The Foundation has also taken many more initiatives to promote quality education for the less privileged and disenfranchised sections of the society by introducing sustainable and cost-effective models. These initiatives have been widely appreciated and recognized by national as well as international organizations, especially the World Bank, which has termed PEF as a role model for the third world.

---

**Success Story**

Sana Khalid is a 15 years old student of 10th class in a PEF-partner school in Bahawal Nagar district who has won 2nd prize of Rs. 100,000 in an essay writing competition organized by the Government of Punjab. Previously, she secured 1st position at Tehsil and 2nd position at both district and divisional level competitions and won cash prizes of Rs. 10,000 and Rs. 16,000, respectively. She has become a symbol of pride for her school and the family.

‘I am thankful to Punjab Education Foundation for providing me quality education as their FAS program has accorded an opportunity to girls like me to get education without spending any money. This program is a ray of hope for the poor as it is promoting education at the grassroots,’ she told while talking to The HOPE.
Adoption of Non Functional Government Schools

Keeping in view the performance of Punjab Education Foundation (PEF), the Government of Punjab has entrusted it with the mandate of rerunning 1006 dysfunctional public sector schools in the province. PEF will functionallize these schools through its mandate of public private partnership; it has already initiated the process of resurveying, mapping and digging out the root-causes of inutility.

PEF arranged a brain-storming session in which different NGOs were invited to be briefed about the project. According to Managing Director-PEF, 100 such schools will be handed over to the selected partners in the 1st Phase, while PEF will provide financial assistance in the form of monthly fee, besides text books on per child enrolment basis.

Setting Up of Regional Offices

In order to facilitate the partner schools management and to expedite the mutual coordination, Punjab Education Foundation has set up two new regional offices at Rawalpindi & Multan, respectively. Rawalpindi regional office has already started functioning, where Naveed Abbas has been appointed as the Regional Coordinator and supporting staff has also been deputed to serve the partner schools at their doorsteps. Meanwhile, Multan office building has been acquired and the staff hiring process has been initiated. These offices will be helpful in prompt interaction with the partner schools in their respective regions.

Free Text Books for PEF Students

Punjab Education Foundation has successfully accomplished the gigantic task of distributing more than three million free text books to about one million students enrolled in nearly two thousand partner schools situated in 29 districts of the province. It is worth mentioning that PEF provides free books of Punjab Text Books Board to its partner schools every year to facilitate the students in their learning.

U.S. Based Professors Agreed Bilateral Cooperation With Punjab Education Foundation

Two U.S. based eminent economists and researchers Asim Ijaz Khwaja, the Professor of Public Policy in Harvard Kennedy School of Government, Harvard University, USA and Tahir Andrubri, Professor of Economics at Pomona College, USA visited Punjab Education Foundation (PEF) Head Office and discussed matters of mutual interest with the management. PEF-Managing Director gave a detailed presentation to the visiting researchers about aims, objectives and future planning of the organization.

The Professors showed their keen interest in working together with the PEF for its Education Voucher Scheme and agreed to enhance bilateral teamwork for the promotion of quality education with the Foundation to further improve its working.

EVS's Children Enrolment Campaign

Punjab Education Foundation (PEF) has vociferously launched Education Voucher Scheme in Rawalpindi District and according to the plan, 1000 vouchers have been distributed among the slum-dwellers for getting free education in their nearby schools. With a view to foster public awareness about the program, a campaign was launched in the month of April, 2010 at The Bells Public School, Naseerabad Colony, Rawalpindi. This campaign received good response from the local community including parents and school Principals who were apprised in detail about the efficacy of the scheme. Besides this, door to door campaign was also launched by PEF staff and Mosque announcements were made as well to inform the locality.

Furthermore, it is pertinent to mention that PEF is formally launching these campaigns in other districts of Punjab namely Kasur and Multan with the aim to benefit the poor of the identified slums to get quality education without any cost, as the core objective of the EVS scheme is to provide educational opportunities to the neglected and deprived children who have no other option because of their socio-economic deprivations coupled with ignorance of their parents.

ALLAH will exalt those who believe among you, and those who have knowledge, to high ranks. All is informed of what ye do.
Al-Mujadallah - Verse 11
**Director CPDP**

Attended Workshop in Nepal

Malih Batool Director CPDP has attended a World Bank sponsored workshop ‘Evaluating the Impact of Development Programs: Turning Promises into Evidence’ at Kathmandu, Nepal. The workshop was also attended by representatives of provincial government departments.

The objective of the workshop was to unite regional project teams (government officials, local researchers, World Bank and other development agencies’ staff) responsible for the launching and implementation of developmental projects focused on Water & Sanitation, Urban & Rural Development, Transport, Energy, Environment, Health, HIV, Social Protection and Education for strengthening their skills and designing rigorous evaluations of these programs.

**Steps**

for Promoting Sports Among the Youth

In order to promote sports culture amongst students, Punjab Education Foundation, in collaboration with the Royal Palm Golf and Country Club, Lahore is going to sign an agreement under which 25 PEF students, aged 5-15, will be trained in the game of Golf. These students would be provided Golf kits, pick and drop and coaching facility and expenses to participate in national and international competitions. This exercise would be done on pilot basis and more students would also be trained after the successful completion of the pilot phase.

**Establishing**

Broader Network Through Technology

PEF official website (www.pef.edu.pk) has been revamped and its updated version has been launched successfully. This new version is user-friendly and contains necessary details related to various programs and upcoming events. Online Complaint Box facility has also been introduced in this updated version in order to facilitate online complaints registration and to respond to them in a more efficient way.

Moreover, PEF-IT Department has successfully launched Student Information System (SIS) and is currently working on different projects like Data-bank for QAT questionnaires; Human Resource Management Information System (HRMIS) which involves sub modules like Employee Profile Management System (EMS), Payroll System, Employee Performance Evaluation and Recruitment.

PEF-IT Department has also conducted Microsoft Office 2007 (MS Excel and MS Project) training sessions of all the PEF staff to give awareness regarding usability of the MS Office in workplace.

**PEF Plans State-of-the-Art**

Head Office at Johar Town

Punjab Education Foundation (PEF) has entered into an agreement with M/s Progressive Consultants for the construction of its head office which is to be built on 60 thousand square feet at Johar Town, Lahore. The building will be constructed on modern architectural lines containing all the necessary security measures to withstand any natural catastrophe. It is designed to accommodate future needs and requirements including energy conservation. An auditorium will also be built having a capacity of more than 250 seats for arranging seminars, social events and academic activities.
Strategic Evaluation for Improving Performance

PEF Monitoring & Evaluation (M&E) Department has developed various procedural arrangements for data collection, analyses and field reporting. Besides this, in order to deal with the issues like quality assurance, students' enrolment, retention, infrastructural development and improvement, the PEF-M&E staff has completed 100 percent monitoring of 973 FAS schools in thirteen districts including Gujrat, Narowal, Sialkot, Bahawalpur, Bahawalnagar, Lodhran, Mianwali, Bhakkar, Muzaffargarh, Rajanpur, Chiniot, Jhang and Lahore. The M&E Department also carries out inquiries on complaints registered online and ensures that each complainant is responded within three working days.

Academic Development Unit

Academic Development Unit (ADU) consists of a core team of subject specialists of English, Mathematics, Physics, Chemistry and Biology. The quality assurance in all PEF partner schools is the exclusive responsibility of the ADU which is the common thread running through all programs in order to assure quality of all the initiatives of the PEF. Administering Quality Assurance Tests (QATs) gives a quantifiable measure of the impact of PEF projects and helps in determining the learning outcomes of the students.

ADU enjoys pivotal significance because the vision and strategy of the organization permeates promotion of quality education in public private partnership at an affordable cost to the disenfranchised sections of society. It has come up as a respectable entity but it has to meet many challenges keeping in view the expansion of the programs and rising rational expectations.

Recent initiatives taken by the unit are:

- Introduction of fool proof marking mechanism
- Development of Automated data base for result compilation
- Collection of QAT papers within 48 hours after QAT conduction

EVS - Changing Despair into Hopes

This is the story of two different families, conjoined together in the vicious circle of poverty and economic deprivation with no hope for the future. Although both Nargis Karamat and Marium Makhan are of two different faiths yet abject poverty is their common providence. Both are going through the similar phase of economic hardships, poverty and ignorance with no alternatives around.

For 45 years old Nargis Karamat, life was a continuous struggle in pain, never giving any hope or respite to her. Even marriage failed to bring any positive change; she ended up as a house maid in different houses to shoulder her family of two kids and a husband. Both the husband and wife were unable to send their children to school as their collective income was just Rs. 6000/- and there was no hope of any social change. After the introduction of EVS in their area, the EVS staff which was on a field survey, noticing her wretched living style, offered vouchers for both of her children. Stunned as she was, Nargis Karamat immediately conceded to the proposal and started sending her children to a nearby EVS partner school.

Similarly Marium Makhan, wife of a poor laborer namely Aalam Gir, is a house maid in the Mughalpura locality. EVS team also offered vouchers to all of her five children namely Noman, Anam, Faiza, Noor and Fayzan who are now enrolled in a nearby EVS partner school.

EVS has proved to be the strong catalyst of social change in their lives as both the mothers are satisfied with their children's education. There is another change in their daily routine, now both the mothers wake up early in the morning and gets their children ready for the school. In the evening, their children, instead of wasting their time outside, sit in their homes to study. EVS is a strong symbol of social change and upward mobility for the poor strata like them as education is changing lives of scores of people.

---

Summary of QATs conducted by ADU

- FAS QATs = 9
- Preliminary FAS QATs = 4
- TICSS QATs = 4
- EVS QATs = 7
- NSP QATs = 3

"Without education it is complete darkness, and with education it is light. Education is a matter of life and death for our nation". Quaid-e-Azam M. Ali Jinnah
Foundation Assisted Schools Program
Mutual Cooperation for Education

The Punjab Education Foundation (PEF) has launched Phase-6 of Foundation Assisted School (FAS) Program in ten new districts i.e. Sargodha, Rahim Yar Khan, Rawalpindi, Jhelum, Layyah, Attock, Mandi Bahauddin, Okara, Pakpattan and Dera Ghazi Khan, for promoting quality education among the poor segments of the society who cannot afford it otherwise.

Under Phase-6 of FAS, 428 schools have entered into partnership. In this regard, agreement signing ceremonies were arranged in regional office Rawalpindi, All Institute of Education, Lahore and District Council’s Raza Hall Multan, respectively.

It is worth mentioning that a total of 1779 PEF-Partner schools are imparting quality education, under the FAS program, in remote and less developed areas of the province.

To encourage and provide incentive to the teachers and partner schools for their outstanding performance, honorarium is distributed on the basis of QAT results. PEF philosophy for giving honorarium is to honour the teachers as a contented teacher can educate higher level of efforts. Recently, teachers’ honorariums were granted to 245 teachers for 6th QAT and 247 others for 7th QAT. School honorariums were distributed among seven schools belonging to Multan, Bahawalpur and Muzaffargarh districts for their stupendous performance.

New School Program (NSP)
Opportunity at your doorstep

The objective of the New School Program (NSP) is to ensure the enrolment and retention of out of school children of the poor families living in far flung and neglected purlieus. NSP motivates private entrepreneurs to establish new schools in those poor areas of Punjab where new schools are needed to give education to the underprivileged children.

To bring about intellectual improvement and improving communication skills of teachers and administrators, PEF organized six-day training workshops for all NSP teaching staff in five districts of the province.

Another achievement of NSP is the remarkable results of Quality Assurance Test; QAT result of 45 NSP Partner Schools in five Tehsils remained 100 percent. These tests were conducted by the National Testing Service for gauging the educational standards and quality assurance of the partner schools. Board of Intermediate & Secondary Education, Bahawalpur checked the papers on behalf of PEF. 1443 students of different classes took part in this test which included papers of Mathematics, English, Urdu and Science. The purpose of this test was to evaluate the educational standard and intellectual ken of the students.

In April 2010 agreement signing ceremony of NSP Phase-II was held at Board of Intermediate & Secondary Education, Bahawalpur where 83 partner schools of Bahawalpur, Rajanpur, Layyah, Rahim Yar Khan and Dera Ghazi Khan entered into an agreement with the PEF.
Continuous Professional Development Program
Capacity Building of Teachers & School Administrators at their doorsteps

The Punjab Education Foundation (PEF) has provided on-job training to as many as 90,000 teachers of 13,000 public and private sector schools of the province under “Continuous Professional Development Program” (CPDP) for the enhancement of their ability to deliver content-knowledge in the most effective and efficient way. It is essential to mention that British Council Pakistan has agreed to support the CPDP by helping in training of English language teachers.

The initiative has been taken for the capacity building and professional development of PEF-partner school teachers to ensure provision of quality education by strengthening their pedagogical skills. Under the CPDP initiative, capacity building of head teachers/Principals of low-cost schools is done for catering to the needs of marginalized segments of society. Under this program, three days training in administration, management & leadership, child psychology, assessment & teaching techniques are arranged by the PEF.

The following initiatives have been taken by the CPDP Department:

- The TICSS team has recently expanded as 24 new Subject Specialists have joined to meet the requirements of increasing number of partner schools. An orientation session was held at the PEF head office in January, 2010 where new members were briefed about the working of the organization and CPDP in particular. A survey was conducted in the 24 districts of the province, in which TICSS is currently operational, to select new TICSS partner cluster schools for the academic year 2010-2011.

- Secondary Level Mentoring (SLM) trainings were also conducted to enhance the pedagogical skills of secondary level teachers and to help develop a student-centered approach in teaching. The efforts of PEF were- loudend by the trainees and relevant school administrations in this regard. During the first quarter of 2010, three SLM workshops were conducted in Rawalpindi, Sheikhupura, Attock, and Faisalabad respectively.

- As Continuous Teachers Development Program (CTDP) has completed one year of partnership with organizations, therefore, a meeting was organized with partner organizations in February 2010 at the PEF head office. The agenda of the meeting was to share the performance evaluation results with the organizations. The number of trainings to be allocated to each partner organization in the next quarter will be based on this result.

- 4484 primary school teachers in 118 CTDP trainings and 1,254 school administrators in 66 School Leadership Development Program (SLDP) benefited during the period January-March 2010 and a target of hundred CTDPs and 40 SLDPs per month has been set forth by the Department for the next quarter. Further twenty-five percent follow-up trainings will be organized to gauge the impact of previous training sessions on the attendees.

- Induction of new organizations for the current year is in process and in this connection, a Professional Development Certification Body meeting was organized in March, 2010. The representatives of organizations were invited to present portfolios of the respective organizations which helped the committee to select partner organizations for the upcoming year.

Education Voucher Scheme
The School of Choice is The Beauty of EVS

Education Voucher Scheme (EVS) is exclusively designed for the benefit of child laborers and helpless children belonging to poor and slum areas, who otherwise could not get education due to financial and social constraints. This scheme has got tremendous response due to its beneficial effect on poor segments of society.

With a view to promote affordable quality education for the less privileged and disenfranchised sections of society, the Punjab Education Foundation (PEF) has decided to further expand its EVS in the Districts of Kasur, Rawalpindi and Multan. Under EVS, 12,000 students from five different areas of Lahore, including Suk Nehar, Fateh Garh, Daroga Wala, Warra Oattar, Harbanspura are already getting free education in 67 PEF-Partner schools; seven new suburban areas of Lahore city are now included in Phase-6 of EVS where Vouchers are distributed in 71 new partner schools. Now in Lahore city, free education to 13000 new students from September this year will be provided under the EVS.

To further support students of remote areas to get educational facilities, total number of EVS vouchers have been increased to 30,000 in the province as 3000 vouchers are being distributed in District Kasur’s poor areas namely Shahbaz Road, Kot Amirzab Khan, Kot Sherbaz Khan and Ali Park and one thousand vouchers are earmarked for each of Multan and Rawalpindi Districts.
Shaista Parvez Malik Visits Lahore Schools

Shaista Parvez Malik, member Board of Directors PEF paid surprise visits to various PEF-partner schools in Lahore to monitor the working conditions, classroom learning and educational standards of the schools. During the visits, she inquired about the impact of partnership with PEF and asked the teachers and school administrators to optimally utilize the available resources for providing an effective learning environment in their schools.

Visits of International Development Partners

During the last three months, various foreign delegations/donor agencies’ representatives visited PEF and its partner schools to comprehend the socio-economic impact of education sector reforms and to further analyze the impact of different initiatives taken by Punjab Education Foundation in the field of quality education.

Expo Sargodha

With a view to highlight the efforts made for the promotion of quality education in the remote hinterlands, the Punjab Education Foundation took part in 2-days ‘6th Education Scenario International Exhibition’ held at a local hotel in Sargodha District. Zahid Mehmood Project Officer-Rawalpindi represented the 4-member PEF team. PEF stall was visited by different educationists, teachers, schools management and students who were apprised of the educational programs and initiatives. Nearly 15 leading national and international institutions including Superior University Lahore, Virtual University of Pakistan and Institute of Chartered Accountants of Pakistan took part in it. Vice Chancellor University of Sargodha, Prof. Dr. Akram Ch. visited different stalls and appreciated the efforts of PEF in promoting quality education in the province.

District Coordination Meetings

PEF with its mission to have better understanding and liaison with partner schools’ management and to keep them involved in the mission of promoting quality education, regularly hosts District Coordination Meetings. DCMs have greatly helped to create and sustain mutual understanding and coordination.

PEF Committed to Work for Minority Students

PEF is committed to ensuring free education for the children; it is especially ensured that the non-Muslim children equally benefit from this facility. PEF is engaged with different Christian schools under FAS program with the purpose to support the greater socialization of the children of different faiths. Gp. Captain Rtd. Cecil Chaudhry, member PEF-BOD is very active for the education of poor children of minority communities which are enrolled in various partner schools. Local non-Muslim students are especially benefiting from the EVS program as 502 Christian and Hindu students are getting education under this scheme in Lahore.

Education is learning what you didn’t even know you didn’t know.
Daniel J. Boorstin
Chairman PEF visits partner schools

Chairman Punjab Education Foundation (PEF)’s Taskforce on Elementary Education Raja Muhammad Anwar visited different PEF partner schools. He inspected educational facilities and enquired about the standard of education from the students and asked the teachers to work more diligently. These visits help in maintaining mutual coordination and fostering understanding which ultimately strengthens public-private partnership.

Salman Anwar Malik has joined PEF as the Deputy Managing Director (Finance). Prior to this, he worked with M.Y. Naghi Group-Jeddah as Financial Controller, Senior Manager ICAP, Dy. Chief Financial Officer SAPPHIRE Group and Manager Accounts ICICI Pakistan Ltd. He is a GTI Medalist and carries with him 10 years of rich professional experience. ICICI Pakistan Ltd. He is a GTI Gold Medalist and carries with him 10 years of rich professional experience.

The Brain of Lahore-2010 Competition

It has been felt that children with poor socio-economic conditions have less access to recreational and sports activities. Punjab Education Foundation (PEF), therefore, is always active to encourage and promote intellectual abilities in the students by arranging declamation contests, sports galas and other co-curricular activities so that their mental-ken could be fully enlightened. Trust for Education and Development of Deserving Students (TEDDS) and PEF’s innovative quiz competition known as ‘The Brain of Lahore’ is a unique feature which has attracted widespread participation of a large number of private and public sector secondary schools of Lahore.

Like previously, The Brain of Lahore-Inter School Quiz Competition was held during the month of January 2010 at The Trust School, Thokar Niaz Baig Lahore. A total of 241 schools participated in this mega event; Ms. Zabreen Tariq of Punjab Girls High School, Township Lahore won the title of ‘Brain of Lahore-2010’ and was awarded Rs. 20,000/.

Besides a large number of general public including teachers and parents, PEF & TEDDS team including member PEF-BOD and CEO-TEDDS, Tahir Yousaf and MD-PEF Mohy-ud-Din Ahmad Wani also participated in the event. A number of guests including columnists Dr. Ajmal Niazi & Munir Ahmad Qureshi (popularly known as Munnu Bhai) and Azfar Hameed (area MNA) were also invited to attend the event. PEF-Chairman Raja Muhammad Anwar addressed the function and stressed on quality education.

May Allah keep supporting us till educating the very last child of Punjab.
